SECURE ID AND CARD PERSONALIZATION SOLUTIONS

COMPLETE ID CARD PROTECTION FROM DATACARD GROUP

Datacard® Certified Supplies provides an extensive offering of ID card accessories. These accessories complement cards produced on Datacard® card systems, giving you consistent, dependable results, greater ease of use, and longer card life. Lanyards, retractable reels, and card holders all add value to our industry leading card systems.

Datacard supply accessories meet a wide variety of needs and budgets.

 **PREMIUM LINE** *The highest-quality accessories with the most stylish options. Well suited for use at all levels when users command the very best.*

 **STANDARD LINE** *Reliable products suitable for a wide range of everyday applications, where practicality, comfort, and safety are key.*

 **ECONOMY LINE** *Extremely affordable and practical accessories that are ideal for short-term or limited use.*

KEEP CARDS FACING FORWARD.

Many lanyards include the convenient “FLIP FREE” feature that ensures cards and badges always face forward, making credentials visible at all times.

PROTECT EXPENSIVE TECHNOLOGY CARDS.

Access control and other technology cards contain embedded electronics that can be damaged or destroyed when holes are punched. And if the hole itself cracks, cards are easily lost. The “NO PUNCH” option in many of our card holders helps protect and prolong the life of the cards.

CARD PRODUCTS

GIVEN THE OPTION, CHOOSE PREMIUM

DATACARD® PREMIUM LANYARDS ARE UNLIKE ANY OTHER AVAILABLE IN THE INDUSTRY.

The Premium Line of lanyards are designed and manufactured to the most exacting standards, for unparalleled durability. Unlike most lanyards that are typically made of loosely braided cotton material, Datacard® premium lanyards use tightly fused nylon for extended life. The reusable breakaway feature helps keep users safe, while protecting today's expensive security cards.

DATACARD® PREMIUM CARD HOLDERS MADE WITH THE SAME DEGREE OF EXCELLENCE.

The two-sided cardholder protects the electronics within a magnetic stripe or smart cards, while providing easy access for daily use. Other Datacard® card holders use steel reinforced eyelets and high quality plastic for continued durability.

DATACARD® PREMIUM RETRACTABLE REELS.

A sturdy spring-loaded mechanism helps keep the premium retractable reels reliable through years of use. A heavy-duty woven cord ensures durability.

Datacard® solutions fit the ever-changing global climate—with advanced identification, debit/credit, and access cards that help ensure protection and security for everyone. We design, manufacture, market, and service integrated card solutions for customers located in more than 120 countries around the world, including government agencies, high-tech corporations, medical facilities, schools, hotels, and just about any market that requires card-based security.

PREMIUM LANYARDS

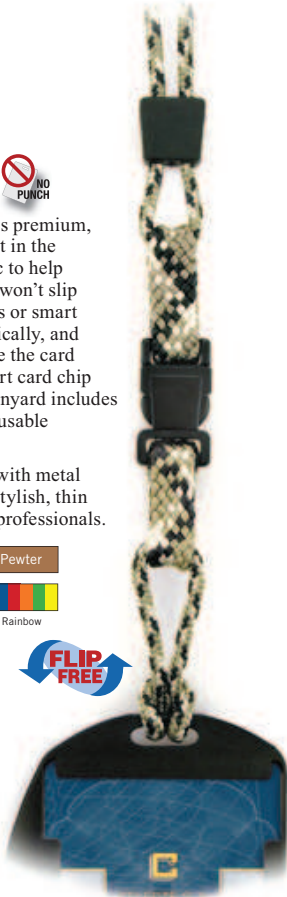

PREMIUM ROUND LANYARD WITH TWO-SIDED CARD HOLDER

The two-sided card holder provided with this premium, 1/8" (3mm) diameter lanyard is truly the best in the industry. Designed of highly durable plastic to help prevent breakage, it also helps ensure cards won't slip out unknowingly. Two magnetic stripe cards or smart cards can be held either horizontally or vertically, and information on these cards is protected since the card holder makes no contact with either the smart card chip or magnetic stripe areas. The FLIP FREE lanyard includes a detachable buckle for easy access and a reusable breakaway connection for safety.

Ideal for use by electricians or in buildings with metal detection since it contains no metal parts. Stylish, thin round lanyard is also preferred by business professionals.

SA9102

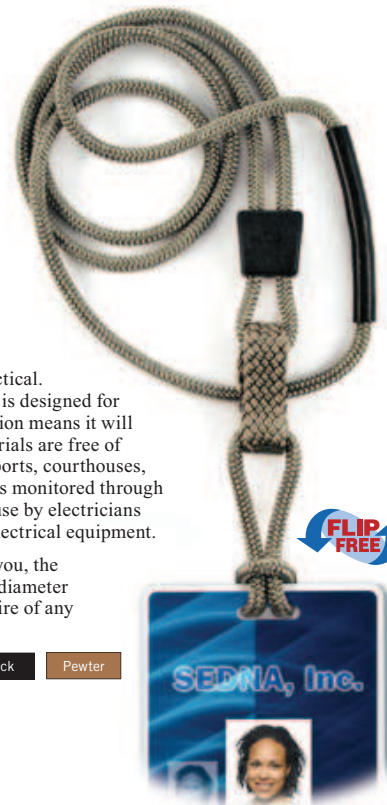

PREMIUM ROUND LANYARD WITH BRAIDED HOLDER

This lanyard is as stylish as it is practical. The reusable breakaway connection is designed for safety, and the heavy duty construction means it will be used for years to come. All materials are free of metal, making it ideal for use in airports, courthouses, and federal buildings where access is monitored through metal detectors. It is also great for use by electricians and others who are surrounded by electrical equipment.

Don't let this industrial design fool you, the brilliant colors and thin 1/8" (3mm) diameter round cord also compliments the attire of any business or professional setting.

SA9100

PREMIUM ROUND LANYARD WITH CARD HOLDER

A 1/8" (3mm) diameter round cord with metal hook and card holder designed to be used when working outdoors or in conditions where dust, dirt, water, and other contaminants exist. Heavy gauge materials prolong the life of the card, as dyes used to print photos and other full color images will not transfer to the card holder. The steel reinforced eyelet provides a strong connection between the lanyard and card holder, resulting in fewer lost cards. The reusable breakaway connection helps keep workers safe.

SA9101

STANDARD AND ECONOMY LANYARDS

STANDARD FLAT LANYARDS

Comfortable 3/8" (10 mm) wide lanyard comes in an array of attractive colors and a variety of end-fitting options. The card grip is ideal for multi-technology cards and access control applications, since no hole punching is required. The lanyard includes a reusable safety breakaway that matches the lanyard color. Also available with alligator clip, card clasp or retractable reel option.

SA5102 Black Red Royal Blue White

WITH REEL AND STRAP CLIP

SA5103 Black Royal Blue

STANDARD ROUND LANYARDS

1/2" (12 mm) diameter lanyard with reusable safety breakaway and black adjustable slider. Plastic card clasp and safety breakaway match the lanyard color.

SA5104 Black Red

ECONOMY ROUND LANYARDS

This 1/8" (3 mm) diameter basic round lanyard includes a metal swivel with alligator clip and is ideal for trade shows, conferences, and other short-term applications.

SA1100 Black White

RETRACTABLE REELS

PREMIUM RETRACTABLE REEL

For those who demand quality, we offer the premium retractable reel. Not only is this reel unobtrusive and easy to use, it is manufactured with the highest quality materials to help ensure years of use. The slide clip on the back allows users to secure the reel onto belts, pockets, or straps. The chrome split ring can be used alone with punched cards, or with a two-sided card holder or premium card holder with steel eyelet.

SA9200 Black

STANDARD RETRACTABLE REEL

This retractable reel is long lasting, convenient, and comfortable. Available in a variety of colors to compliment any corporate color or wardrobe style.

SA5200 Black Red Royal Blue
White Trans. Red Trans. Blue

ECONOMY RETRACTABLE REEL

A basic round reel with strap clip for attaching the card and slide clip for securing to clothing, belts, brief cases, or purse straps.

SA1200 Black White

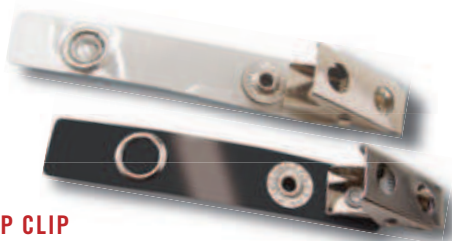

CARD HOLDERS

STRAP CLIP

Simple vinyl strap available in several colors with a metal alligator clip.

SA1302 Black Red Royal Blue White Clear

CARD GRIP

Today's access control cards and technology cards are very susceptible to damage when holes are punched in them. Avoid this extra cost and hassle by using the card grip. Tested to securely hold a card up to a pull strength of 10 pounds, with a metal alligator clip for safely attaching to clothing, belts, and straps.

CARD HOLDERS

TWO-SIDED CARD HOLDER

The two-sided card holder is truly the best in the industry. Designed of highly durable plastic to prevent breakage, it also helps ensure that cards won't slip out unknowingly. Two magnetic stripe cards or smart cards can be held either horizontally or vertically, and information on these cards is protected because the card holder makes no contact with either the smart card chip or magnetic stripe areas. It is also great for holding proximity cards or other identification cards. Can be used with lanyards, reels, or strap clips.

SA9300 Black

PREMIUM CARD HOLDERS

These vertical card holders prevent the transfer of color photos and other images from the card to the card holder, prolonging the life of any card. Made with heavy gauge materials and either a steel reinforced eyelet or a resealable ziplock for protection from moisture, dirt, dust, and other contaminants. The steel reinforced eyelet is recommended for use with the premium retractable reel.

SA9301 Eyelet Clear

SA9302 Ziplock Clear

STANDARD CARD HOLDERS

Standard card holders are available for vertical and horizontal format cards. Holders include molded reinforcements and materials that prevent ink transfer. For use with strap clips, retractable reels, and lanyards with alligator clips or plastic card clasps. (not shown)

SA5301 molded reinforcement Clear

ECONOMY CARD HOLDERS

Available with metal alligator clip or molded reinforcement for use with strap clips, retractable reels, and lanyards with plastic card clasps and alligator clips. Perfect for guests, visitors, and other short-term use applications.

SA1300 Alligator Clip Clear

SA1301 Molded Reinforcement Clear

HALF CARD HOLDER

Two models available, one for vertical and the other for horizontal cards. Molded reinforcements are ideal for use with a retractable reel, strap clip, or wrist coil and are preferred when cards are used to access point of sale terminals or when recording time and attendance.

SA5300 Clear

SPECIALTY HOLDERS

ARM BAND

When identification cards must be displayed, yet kept out of the way, the arm band is the card holder of choice. The clear vinyl holder securely holds the card and the navy blue elastic band is adjustable to fit any user. Great for active workplaces such as warehouses, hospitals, assembly lines, or anywhere loose or hanging items might get in the way.

SA5400

BREAKAWAY LANYARD

Industrial settings and hospitals present a host of safety concerns for employers and workers. This lanyard is designed to break in order to protect users from hazards. The frosty clear plastic laminate is soft and unobtrusive and designed to protect workers in the event that their ID card or lanyard gets caught.

SA5700

WRIST COIL

Some employees use their cards several times an hour, and need simple, quick access so their work is not interrupted. The wrist coil is preferred by those who use point of sale and other terminals because cards can quickly be located and used with minimal interruption to one's routine. The wrist coil also allows wearers to access their card with only one hand.

SA5500

LUGGAGE LOOP

Keep cards securely attached to luggage handles, purse straps, and briefcases with these economical yet reliable, 6" (15 cm) long easy-to-use loop straps.

SA5600

CARD PRODUCTS

Datacard Group also offers a variety of card products to support any card program, including blank PVC cards, Datacard® StickiCard™ adhesive-backed plastic cards, hole punches, cleaning supplies, and custom personalization services.
